- **Laboratory & Technical Competencies:** Data Entry, Quality Assurance, Quality Control, Technical Documentation, Equipment Operation, Process Improvement, Inventory Management, Data Analysis
- **Software & Tools:** Microsoft Office, SQL, Git, AWS Fundamentals, JSON
- **Professional Skills:** Attention to Detail, Documentation, Communication, Time Management, Team Collaboration, Organization, Problem Solving

PROFESSIONAL EXPERIENCE

Ecommerce & Digital Marketing Manager
Nael Inc - South Bend, IN

January 2026 - Present

- Manage ecommerce operations including product listings, pricing, inventory, product categorization, imagery, shipping information, and digital content.
- Maintain and verify product data across ecommerce and point-of-sale systems to support accurate inventory and product information.
- Developed structured workflows for product photography, image editing, listing creation, pricing, inventory verification, and publication.
- Perform quality checks on product information, pricing, and inventory before publication to reduce errors and maintain data accuracy.
- Coordinate inventory, order fulfillment, shipping, packaging, and other operational workflows supporting online and in-store sales.
- Create and maintain standardized procedures for product management and order-processing activities to improve consistency and efficiency.
- Develop digital marketing content and social media campaigns to increase customer engagement and support the company's online presence.

Customer Support Associate
Nael Inc - South Bend, IN

October 2025 - January 2026

- Assisted customers with product inquiries, orders, returns, exchanges, and issue resolution through phone, email, and in-person support.
- Investigated customer concerns, identified underlying issues, and provided timely solutions while maintaining professional communication.
- Processed customer orders, returns, exchanges, and refunds while maintaining accurate customer and transaction records.
- Coordinated with warehouse and operations staff to support accurate order fulfillment, inventory handling, and shipment processing.
- Maintained organized documentation for customer requests, orders, and returns to support accurate recordkeeping and follow-up.
- Managed multiple customer and operational priorities in a fast-paced retail environment while maintaining service quality and accuracy.

Software Engineering Intern

January 2025 - July 2025

American Identity Group – South Amboy, New Jersey

- Helped rebuild a legacy internal order-processing system using **Svelte, Node.js, SQL, AWS, and REST APIs**, supporting Mailer, Agent, and Admin workflows.
- Developed frontend interfaces and backend functionality for customer information, order processing, claim lookup, CSV uploads, and administrative workflows.
- Integrated **email and payment validation APIs** that allowed agents to verify customer information before it entered downstream systems, improving data accuracy.
- Connected application functionality to a **SQL database hosted on AWS RDS** for storing, retrieving, and managing customer and order information.
- Developed automated **cron jobs** for recurring nightly database maintenance and data-processing tasks, reducing repetitive manual work.
- Tested and debugged application functionality, database operations, and API integrations to identify issues and improve system reliability.
- Adapted the application's user interface based on stakeholder requirements and feedback to better support internal workflows and usability.

EDUCATION

-
- **Bachelor of Science** in Computer Information Technology
Purdue University Northwest

December 2025

Area of Expertise: Web Development

Relevant Coursework:

- Systems Administration
- Database Systems
- Computer Networking
- Web Development
- Cybersecurity Fundamentals
- Cloud Computing
